

NATRAkelp

Superior Seaweed Biostimulant

Vm³ Watersaver

SUPERIOR LONG TERM WATER AND NUTRIENT RETENTION

FOR USE IN GARDENS, ORCHARDS, VINEYARDS, NURSERIES & LAWNS

Composition: Natrakelp, siliceous earth, mineral earth, super absorbent polymer. Greater than or equal to 98% natural minerals

Method of Use:

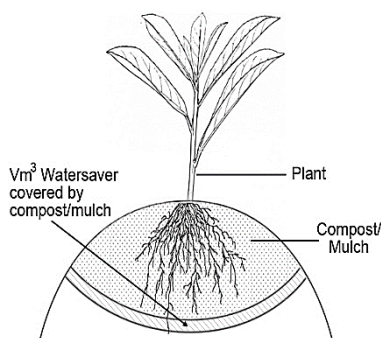

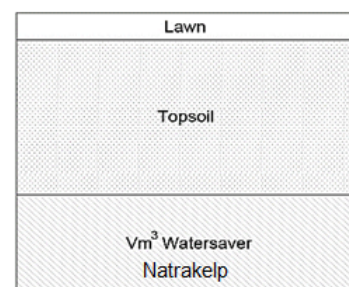

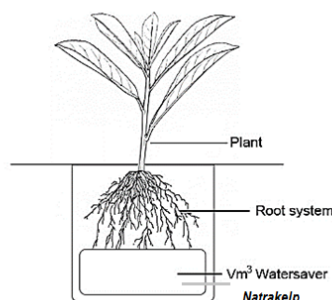

1. For new plantings incorporate into soil 10mm below root level. In the case of existing plantings or reapplication dig in 10mm below surface avoiding root area and cover with mulch or compost covering root area.
2. Initial watering should be equal to 50mm of natural rainfall over 2 to 3 hours or repeated small watering's to a similar level can be completed before planting
3. Replacement of Vm3 Watersaver is recommended at least annually.
4. Water high in saline may reduce the performance/effectiveness of Vm3 watersaver.
5. Whilst Vm3 Watersaver retains moisture and nutrients, maintain regular monitoring of nutrients as accelerated plant growth may deplete nutrient levels.

Caution:

When applying wear protective eyewear, mask and gloves.
If swallowed give water by mouth and seek medical attention Refer to MSDS.

Storage:

Due to high affinity for moisture, during storage the product should remain in the sealed airtight packaging in which it is supplied in a dry, low humidity environment out of direct sunlight.

Application Rate:

To a maximum of 20% of soil.

Natrakelp Superior Seaweed Biostimulant is manufactured using a natural bacterial fermentation process to liquefy the kelp that retains all the nutrients and most importantly the alginate.

This unique organic product is scientifically proven to enhance moisture retention and soil structure at the same time as promoting healthy plants by delivering a package of essential nutrients.

Natrakelp Superior Seaweed Biostimulant is concentrated kelp, one of the world's richest sources of micro-nutrients, alginic acid, essential amino acids, minerals and other complex organic compounds.

1 Litres (approx. 1kg)

Vm3 Watersaver retains up to 13 times more moisture than Zeolite or compost. It releases the Natrakelp as needed by the plant.

Manufactured by Vm3 Purefier using NATRAkelp Liquid Seaweed
